## **Skanska Opens Mid-Atlantic Civil Operations Office**

*New Civil Office to Serve Washington, D.C. and Surrounding Mid-Atlantic Region*

**Tysons, VA, August 17, 2021** – Skanska USA, a leading global development and construction firm, announces the opening of a new office for its Civil operations located at 8521 Leesburg Pike in Vienna, Virginia. The 3,129-square-foot office will support ongoing Skanska civil projects in the Mid-Atlantic region, as well as the pursuit of new opportunities.

“There is currently tremendous focus on advancing investments in infrastructure projects such as urban roads, interstate highways, bridges, tunnels, public transit and the passenger rail systems both nationally and in the Mid-Atlantic region,” said Don Fusco, president and CEO of Skanska’s USA Civil operations. “We are known for our world-class construction services within the civil sector and look forward to supporting strategic initiatives in Maryland, Virginia and Washington, DC.”

In the Mid-Atlantic region, Skanska built the First Street Tunnel, 11<sup>th</sup> Street Bridge and adjacent interchanges, infrastructure in Washington, D.C. as well as the Elizabeth River Tunnels project between Norfolk and Portsmouth, VA. Skanska is currently working on the replacement for the Governor Harry W. Nice Memorial/Senator Thomas “Mac” Middleton Bridge, which connects Newburg, MD and Dahlgren, VA, the Track 22 Reconstruction Project at Washington Union Station and the Amtrak Baltimore Penn Station Next Generation High-Speed Rail Infrastructure Renovations project.

“Skanska has an extensive and rich history of delivering some of the Mid-Atlantic region’s most high-profile, notable and complex civil projects.” said Michael Viggiano, executive vice president of Skanska. “With our new, dedicated office in Tysons we can more effectively support Skanska’s Civil operations in the region and provide a strong platform for growth.”

As a leader in heavy civil transportation and nationally ranked by ENR magazine Skanska is the 2nd largest rail and mass transit contractor in the United States. Its legacy in the Mid-Atlantic region dates back the 1970’s when Skanska worked for the Washington Metropolitan Area Transit Authority building rail yards, tunnels and stations for the new Metro system.

Skanska also has operations for its Commercial Development and Building business units in the greater Washington, D.C. region.

### **About Skanska USA**

Skanska is one of the world’s leading construction and development companies. Skanska’s core operations in the U.S. include building construction, civil infrastructure

and developing self-financed commercial properties. An industry-leading innovator in both safety and project execution, Skanska offers competitive solutions for traditional and complex assignments that build a more sustainable future for our customers and communities. In 2020, Construction operations in the U.S. generated \$6.5 billion in revenue. Skanska's U.S. commercial development operations has invested a total of \$2.8 billion in commercial and multi-family projects, creating more than 10 million-square feet of sustainable and community focused developments in select U.S. markets. With U.S. headquarters in New York City, Skanska has 29 offices with 7,600 employees nationwide. Global revenue of parent company Skanska AB, headquartered in Stockholm and listed on the Stockholm Stock Exchange, totaled approximately \$17.2 billion in 2020.
