Skanska to build research facility in New York City, USA, worth USD 68 M, about SEK 570 M

Skanska has signed a contract to build an educational research facility in New York City. The contract is worth USD 68 M, about SEK 570 M, and will be included in the order bookings for Skanska USA Building in the third quarter 2015. The client is confidential.

Construction has begun and completion is expected in January 2017.

Skanska USA is one of the leading development and construction companies in the country, consisting of four business units: Skanska USA Building, which specializes in building construction; Skanska USA Civil, specialized in civil infrastructure; Skanska Infrastructure Development North America, which develops public-private partnerships; and Skanska USA Commercial Development, which develops commercial projects in select U.S. markets. Headquartered in New York, Skanska USA has more than 9,600 employees and its 2014 revenues were SEK 43.5 billion.
