Skanska Welcomes Back Houston Project Executive Dan Balow and Promotes Jaquay Rogers to Preconstruction Director

Houston – Skanska announced today the return of Dan Balow as a project executive and the promotion of Jaquay Rogers to preconstruction director, both in Houston.

Balow has 16 years of experience in the industry and previously served as a senior project manager. He is responsible for overseeing construction for Skanska's commercial development projects in Houston, which includes 3009 Post Oak Boulevard in the Galleria.

Balow graduated from Michigan Technological University with Bachelor of Science degrees in both civil engineering and environmental engineering. He is a licensed professional engineer and LEED Accredited Professional.

Additionally, Jaquay Rogers has been promoted to preconstruction director. Rogers has 12 years of experience in the industry and began working with Skanska in 2006 out of the Parsippany, New Jersey, office and relocated to Houston in March 2011.

During his seven years with Skanska, Rogers has worked with key members of the project team to develop the bid packages and determine best value recommendations as well as review constructability, site utilization and scheduling. Most recently, Rogers supported project teams on 3009 Post Oak Boulevard and Harris County Hospital District, LBJ Hospital Westlands Clinic and Garage.

Rogers graduated from the New Jersey Institute of Technology with a Bachelor of Science in electrical engineering and a Master of Science in engineering management. He also holds a graduate certificate in project management and has served as a member of Skanska's national diversity and inclusion council.
