### **Skanska builds housing and premises for Örebrobostäder for about SEK 400 million**

**Skanska has signed an agreement with Örebrobostäder on continued cooperation with the Hållstugan block in central Örebro, Sweden. The agreement includes both renovation and production of new apartment buildings and is worth approximately SEK 400 million, which will be included in the order bookings for Skanska Sweden in the first quarter of 2023.**

For a year, Skanska has been working on preparations for the project, demolition of a few existing buildings and renovation of two apartment buildings. The new contract includes construction of a parking garage, as well as four buildings with around 90 apartments and shops and restaurant premises on the ground floor.

The Hållstugan block is located in central Örebro between Stortorget and Trädgårdsgatan. Skanska's work affects approximately half of the block, where new walking paths and square areas will also be constructed.

Construction work is already underway and is expected to be fully completed in 2025.
