Skanska builds power projects in Vestland County, Norway, for NOK 1.9 billion, about SEK 1.9 billion

Skanska has signed a contract with Aker BP for the construction of a transformer station and a compensation station in Vestland County, Norway. The contract is worth NOK 1.9 billion, about SEK 1.9 billion, which will be included in the Nordic order bookings for the first quarter 2024.

The contract consists of both building and construction work related to a new transformer station in Børdalen in Samnanger municipality, as well as a compensation station at Årskog in Fitjar municipality.

The construction works is ongoing, and the project is expected to be completed during the autumn 2025.
