Skanska's Robert Utsey Appointed to Boys & Girls Clubs of Central Florida's Board Officers and Directors for 2010

Orlando, FL — Robert Utsey, Senior Vice President at Skanska USA Building, Inc., and supporter of the Boys & Girls Club for the last 10 years, has been named chair of the Boys & Girls Clubs of Central Florida's (BGCCF) 2010 board.

BGCCF announced its new executive committee and board of directors during its Annual Meeting at the Orlando Marriott Downtown.

The newly-appointed officers, with the collaboration of our branch boards, BGCCF staff and volunteers, will work collectively as one to continue offering the over 12,000 members at 30 Clubs across Central Florida the highest level of service and vital core youth development programs. Most importantly, they will rally together to continue providing hope and opportunity to disadvantaged youth in our community.

"We are grateful to our outgoing officers for their hard work, dedication and for a tremendous year filled with success. I am also excited to welcome an eager team of individuals who have supported our organization for many years and who will continue to further the work started in 2009. I have confidence that they will work hard and take on additional challenges in order to meet new goals and expectations," said Gary Cain, BGCCF president.

Skanska USA is one of the largest, most financially sound construction networks in the country consisting of four business units: Skanska USA Building, which specializes in building construction; Skanska USA Civil, which is focused on building civil infrastructure; Skanska Infrastructure Development, which develops public-private partnerships; and, Skanska Commercial Development, which pursues commercial development initiatives in select U.S. markets. Headquartered in New York with 33 offices across the country, Skanska USA has approximately 7,000 employees and its 2008 revenues were \$6.3 billion, representing 27 percent of Skanska's global revenues.

Skanska is one of the world's leading project development and construction groups with expertise in construction, development of commercial and residential projects and public-private

partnerships. Based on its global green experience, Skanska aims to be the clients' first choice for green solutions. The Group currently has 53,000 employees in selected home markets in Europe, in the US and Latin America. Headquartered in Stockholm, Sweden and listed on the Stockholm Stock Exchange, Skanska's sales in 2009 totalled \$18 billion.
