Skanska Adds Ken Clausen as Director of Integrated Design

Brings more than 15 years of experience in engineering and construction

New York, N.Y. – Skanska USA today announced the addition of Ken Clausen as director of integrated design for its Mission Critical Center of Excellence (“COE”), a team of experts that specialize in providing the highest level of quality and energy optimization services for constructing new and existing data centers. Projects are delivered risk free, on time, safely and within budget.

In his new role at Skanska, Clausen will utilize his more than 15 years of experience working in engineering and construction to assist in the pursuit and development of new mission critical and energy efficiency projects throughout the U.S. and abroad. He will be responsible for managing the design development and review of these projects, and ensuring effective design collaboration between the engineering and construction teams throughout the entire construction process.

“Ken joins the Skanska team with significant experience and an impressive track record working with mission critical facilities in the U.S. and on an international scale,” said Richard Kennedy, chief operating officer for the Metro New York area at Skanska USA. “By adding Ken to our team of experts in the Mission Critical Center of Excellence, we are further strengthening our commitment to providing our clients with energy optimization services for new and existing data centers.”

Prior to joining Skanska, Clausen served as managing principal and delivery manager for the Americas at EYP Mission Critical Facilities Inc. where he was responsible for business development, client relationship maintenance and project delivery implementation for their Albany office. In the past, he has worked on numerous mission critical projects including the construction of high-performance, energy efficient data centers for Eaton Corporation, Microsoft and MetLife. His portfolio of experience also includes work at Massachusetts Green HPC, RPI CCNI and KVH Telecom.

Clausen is a Project Management Professional (PMP) and recipient of the 2008 MVP Award by HP Technology Services Group. He received his Bachelor of Construction Technology from the University of Akron in Ohio and his Masters of Business Administration at Cleveland State University. He currently resides in Albany, New York.
