Skanska expands and reconstructs a production facility in Poznań, Poland, for PLN 141M, about SEK 310M

Skanska has signed a contract with Beiersdorf Manufacturing Poznań LLC to expand and reconstruct a production facility in Poznań, Poland. The contract is worth PLN 141M, about SEK 310M, which will be included in the order bookings for Europe for the second quarter 2021.

Skanska will construct nine new buildings and expand or modernize four existing buildings, with a total area of 36,700 square meters, including a process building, a warehouse, laboratories, offices, and utility buildings.

The construction has already started, and the completion is scheduled for April 2023.

Skanska is one of the leading construction and project development companies in Europe. Outside the Nordics, the company has operations in building construction and civil engineering in Poland, Czech Republic, Slovakia, Hungary, Romania and the UK. Skanska develops commercial properties in select home markets in Poland, Czech Republic, Romania and Hungary, while residential development is active in Poland, Czech Republic and in the UK with the BoKlok concept. In 2020, Skanska had sales of SEK 26 billion and 10,100 employees in its European operations outside the Nordics.
