## **Skanska builds schools with multi-purpose hall and rehabilitation center in Trondheim, Norway, for NOK 781M, about SEK 770M**

**Skanska has signed a contract with Trondheim municipality to build Nidarvoll schools, a multi-purpose hall to the school and a rehabilitation center. The contract is worth NOK 781M, about SEK 770M, which will be included in the Nordic order bookings for the second quarter 2021.**

The schools, for both 1-7<sup>th</sup> grade and 8-10<sup>th</sup> grade, cover about 14,800 square meters and will house up to a total of 1,000 students. The rehabilitation center covers approximately 10,000 square meters over four floors, where 72 short-term places are planned for rehabilitation as well as associated training and office facilities.

The Nidarvoll projects has very high ambitions when it comes to sustainability. Solar cell panels and a common energy center divides energy between the buildings and optimizes consumption and produces electricity in order to secure a low energy use.

The construction work for the rehabilitation center is planned to start in June 2021 and will be completed in April 2023. Construction of the schools and multi-purpose hall is planned to start in September 2021 and will be completed in November 2023.

Skanska is one of the leading construction- and project development companies in the Nordics, with operations in building construction and civil engineering in Sweden, Norway and Finland, and developing residential- and commercial property projects in select home markets. The commercial development stream is also active in Denmark. Skanska had sales of about SEK 66 billion and about 14,800 employees in its Nordic operations during 2020.
