A.B. Robinson Joins Skanska USA Building Inc.

Skanska USA Building Inc. announces that A.B. Robinson has joined the company as Corporate Senior Vice President of Health, Safety & Environmental (HS&E). Robinson is responsible for leading the company's health, safety and environmental programs including strategic planning and expansion of Skanska's Injury-Free Environment initiative.

Robinson has more than 27 years of construction industry experience and was most recently employed by the Fluor Corporation where he was a vice president responsible for health, safety and environmental, and worker's compensation programs globally. He has developed and evolved numerous safety programs throughout his career including co-founding a construction safety curriculum at the University of Florida, which is dedicated to the cultivation of cutting-edge HS&E practices. Robinson is also credited with leading the implementation of programs that achieved world-class performance, resulting in industry-low injury and illness rates.

Robinson was instrumental in facilitating the receipt of many industry safety awards from various associations including the Business Roundtable, Associated General Contractors, Associated Builders and Contractors, the Royal Society for the Prevention of Accidents (RoSPA) and the National Safety Council, of which he is a member. Robinson also is affiliated with National Construction Safety Executives and the American Society of Safety Engineers. Robinson has a B.A. degree in political science from Furman University and completed the Executive International Business Program at Thunderbird International School of Business. Skanska USA Building Inc. is a leading national and local provider of construction, pre-construction consulting, general contracting and design-build services to a broad range of U.S. industries including life sciences, healthcare, education, high-tech, aviation, transportation and sports and entertainment. Skanska USA Building also provides pharmaceutical validation services to clients. The company, part of the Skanska AB global group of companies, is headquartered in Parsippany, New Jersey, and has approximately 4,100 employees.

Skanska is one of the world's leading construction groups with expertise in construction, development of commercial and residential projects and public-private partnerships. Skanska is committed to finding innovative solutions by cooperating closely with customers and combining the

company's international expertise with local presence. The Group currently has 54,000 employees in selected home markets in Europe, in the U.S. and Latin America. Sales in 2005 totaled \$17 billion.
