### **Skanska USA Building Inc. To Provide Construction Management Services at T.F. Green Airport**

Skanska USA Building Inc. says it has been awarded an assignment to provide construction management services associated with security and non-security-related terminal improvements at T.F. Green Airport in Warwick, R.I. Construction for the \$68 million project is underway and the expected completion date is scheduled for March 31, 2008.

The project is being managed by the Skanska's Boston office and is the first project awarded by the Rhode Island Airport Corporation to Skanska USA Building Inc.

The scope of work includes the construction of an in-line explosive detection system (EDS), a baggage screening system, expansion of the facility's security screening checkpoint (SSCP), expansion of administrative offices, baggage rooms, retail space and other terminal improvements. HNTB is the architect.

Skanska USA Building Inc. is a leading national and local provider of construction, pre-construction consulting, general contracting and design-build services to a broad range of U.S. industries including life sciences, healthcare, education, high-tech, aviation, transportation and sports and entertainment. Skanska USA Building also provides pharmaceutical validation services to clients. The company, part of the Skanska AB global group of companies, is headquartered in Parsippany, New Jersey, and has approximately 4,100 employees.

Skanska is one of the world's leading construction groups with expertise in construction, development of commercial and residential projects and public-private partnerships. Skanska is committed to finding innovative solutions by cooperating closely with customers and combining the company's international expertise with local presence. The Group currently has 54,000 employees in selected home markets in Europe, in the U.S. and Latin America. Sales in 2005 totaled \$17 billion.
