Skanska adds VP of Preconstruction Services to Oakland Office

Oakland, Calif. – Skanska USA Building Inc. announced today that David Buckel has joined its Oakland, Calif., office as Vice President of Preconstruction Services. The addition increases Skanska's depth of executive talent, as Buckel has served the past 28 years in the construction industry, mostly in Northern California.

"I am excited to work with such a cohesive building team serving the greater Bay Area and beyond," said Buckel. "I look forward to helping to continue to serve our clients needs."

Skanska Executive Vice President and Area General Manager Rick Millitello commented, "David's extensive experience with estimating diverse project types is an asset to our leadership team here in Oakland. He brings a wealth of knowledge and dedication to all aspects of construction operations."

Buckel's initial responsibilities at Skanska will include reviewing operations procedures to streamline the preconstruction efforts and ensure the responsiveness of his team.

Buckel's experience lies in the healthcare, aviation, data center, hotel, retail and commercial market sectors. He is a licensed Civil Engineer and LEED AP practitioner. Buckel developed and implemented one of the first large-scale on-site construction-recycling program stations on the West Coast. The program won numerous awards for innovative and progressive business practices.
