07.30 am CET

### **Skanska reconstructs the Williamsburg Bridge in New York, USA, for USD 150M, about SEK 1.5B**

**Skanska has signed a contract with the New York City Department of Transportation to reconstruct and rehabilitate the Williamsburg Bridge in New York, New York, USA. The contract is worth USD 150M, about SEK 1.5B, which will be included in the US order bookings for the third quarter of 2022.**

The project includes structural steel repairs throughout the bridge superstructure, inclusive of floor beam repairs, a transit hanger retrofit and temporary jacking system, gusset plate repairs, truss bottom chord repairs, top and bottom lateral bracing strengthening, overhead truss diagonal replacements, intermediate towers repairs and transit stringer repairs.

Work will begin October 2022 and expected completion is December 2025.
