Skanska Awarded Adjudication Co-Location Activities Facility Project at Fort Meade in Maryland

Rockville, Md. – Skanska USA Building Inc. announced today that it has been awarded a \$31.8 million contract by the U.S. Army Corps of Engineers, Baltimore District, to build the Adjudication Co-Location Activities Facility at Fort George G. Meade, Maryland. The architect of record is HSMM/HOK.

The design-bid-build contract calls for the construction of a three-story, 151,59-square-foot structure to provide office, administrative and other support space for a work force of approximately 700. The contract was issued in accordance with the Department of Defense Base Realignment and Closure Act of 2005, and calls for completion of the facility in March 2011.

“We are tremendously excited to begin work on this project,” said Skanska Area General Manager Chuck Brawley. “It is also an honor to be able to support those who serve our country. We try to give back to our community in all we do, but the men and women who call Fort Meade home are truly giving all they have. We hope the new facility enhances the work they do on the base.”
