Skanska Awarded Construction Management Contract for Headquarters Building in USA for USD 55 M, about SEK 374 M

Skanska has signed a construction management contract with a confidential client to build a new headquarters building, located in the Northeast region of the USA. The contract value for Skanska is USD 55 M, about SEK 374 M, which will be included for order bookings for Skanska USA Building for the second quarter.

Skanska will construct the building's core and shell to produce its overall structure envelope and building-level systems, including central heating, ventilation and air conditioning.

Construction has begun and is scheduled for completion during the summer 2013.

Skanska USA is one of the leading development and construction companies in the country, consisting of four business units: Skanska USA Building, which specializes in building construction; Skanska USA Civil, specialized in civil infrastructure; Skanska Infrastructure Development, which develops public-private partnerships; and Skanska Commercial Development, which develops commercial projects in select U.S. markets. Headquartered in New York, Skanska USA has approximately 9,400 employees and its 2011 revenues were SEK 31.3 billion.
