Skanska to Construct Hospital Expansion for the Nemours Foundation

Skanska has secured the assignment to construct the expansion of the Nemours/Alfred I. duPont Hospital for Children in Wilmington, Delaware. The contract amounts to \$215 million, which will be included in order bookings for the second quarter of 2011. Skanska is currently completing the Nemours Children's Hospital in Orlando, Florida, for the same client.

The project is a five-story, 425,000-square-foot, 144-bed expansion to the existing Alfred I. duPont Hospital for Children. The project includes a 108,000-square-foot, 188-car ground level parking garage below the new addition. The first floor will contain a new emergency department, atrium, retail, and dining facility. The expansion will be connected back to the existing facility with a three-story connecting link.

Construction work will begin in September of this year and is scheduled for completion in late 2013.
