Skanska USA Civil Northeast Announces Promotions

New York, NY – Skanska USA Civil Northeast announced today the promotions of Mike Viggiano, Mike Attardo and Rob Nichols.

Mike Viggiano has been promoted to Senior Vice President/General Manager. In this role, Viggiano will be responsible for the day-to-day operations of Skanska USA Civil Northeast and will work closely with Executive Vice President Mike Cobelli to continue the success and growth of Skanska.

Viggiano has 20 years of experience in the construction industry, 16 of which have been with Skanska. Viggiano was a key factor in the Corona Maintenance Facility as well as the Time Square Subway Station Rehabilitation. In his role as Vice President of Operations, Viggiano oversaw such projects as the 7-Line Subway and Del 159 projects.

Mike Attardo has been promoted to Senior Vice President of Field Operations. He will have construction oversight responsibilities for all of Skanska USA Civil Northeast's project operations. While still maintaining direct responsibility over his current projects, Attardo will now be asked to assist in any and all field and construction issues company-wide.

Attardo will report to Viggiano and together they will ensure that Skanska USA Civil Northeast continues its high standards of quality construction, continues to develop the Supervisory and Craft work force and maximizes the sharing of resources across the projects.

Attardo joined Skanska 29 years ago. Notably, he was the first recipient of Stu Graham's Dirty Boots award. Attardo has been a driving force behind some landmark projects such as JFK AirTrain and the WTC reconstruction. As Vice President of Operations, he was instrumental in guiding projects such as Dey Street, 2nd Ave. Subway and the Amtrak Fan Plant.

Rob Nichols has been promoted to Senior Vice President of Estimating. Reporting to Viggiano, Nichols will be responsible for all of Skanska USA Civil Northeast's engineering, estimating and preconstruction services, as well involved in many other vital office functions.

He has 25 years of construction experience with almost seven of those years spent at Skanska. In his recent role as Vice President of Estimating, Skanska USA Civil Northeast has been the successful bidder on a number

of projects for the Department of Environmental Protection such as Newtown Creek, CAT-DEL and the Croton Water Filtration Plant, and for the MTA including the 7 Line Extension and the 2nd Ave project.
