Skanska replaces wastewater resource facility sewage pump system in New York, USA, for USD 76M, about SEK 640M

Skanska has, as part of a joint venture with RJ Industries, signed a contract with the New York City Department of Environmental Protection (NYCDEP) to replace sewage pumps and ancillary equipment and structures at the Coney Island Waste Water Resource Facility in Brooklyn, New York, USA. The total contract is worth USD 108M. Skanska will include its USD 76M portion of the contract, about SEK 640M, in the US order bookings for the first quarter 2021.

Construction began in February 2021 and is scheduled for completion in February 2025.

Skanska is one of the leading construction- and project development companies in U.S., specialized in building construction, civil infrastructure and developing commercial properties in select U.S. markets. Skanska USA had sales of SEK 66 billion in 2020 and had about 7,600 employees in its operations.
