Nordic Light at Váci Corridor

The Nordic Light Office complex is located in the most popular office hub, the new CBD of Budapest. The Váci Office Corridor was established in the 1990's, and now it is one of the most important business areas of the Hungarian capital.

The complex stands as one of the most distinguished office facilities of the area. It offers a great location close to the heart of Budapest, being easily reached either by car or public transportation. Metro and tram stations are at walking distance, connecting the office with all the important areas of the city. A variety of options for having lunch, browsing and recharging are at your doorstep.

Nordic Light Office Complex

Nordic Light is a class "A" office complex which has acquired LEED Gold certification and complied with the sustainability criteria of the international green building rating system.

The first and second buildings were delivered in 2016. Each of them has 7 floors, comprising 26.200 m² of office space as well as 1.800 m² of retail area with more than 400 underground parking spots. Well-being features as landscaped multi-activity courtyard, green terraces, bike storage areas with lockers and showers, along with sustainable solutions were given high priority. The passageway connecting Váci road and Visegrádi street creates a pleasant environment for tenants and nearby communities.

NORDIC LIGHT

Nordic Light Trio

Nordic Light Trio is the third building of the existing office complex. Aiming for implementing WELL building standard, it will complete the lively and innovative working environment already created, focusing on human health and wellbeing.

BeWell

WELL building standard is changing the way people think about buildings. It explores how design, operations and behaviors within the places where we live, work, learn and play can be optimized to advance human health and well-being, covering seven areas such as air, light, water, fitness, nourishment, comfort and mind.

Nordic Light Trio is aiming for WELL building standard and will be built along these principles to create a healthy, happy and inspiring office environment.

Green Office Building

THROUGH THE DESIGN AND DEVELOPMENT OF NORDIC LIGHT OFFICE COMPLEX, WE PAY CLOSE ATTENTION TO THE REDUCTION OF THE CARBON FOOTPRINT AND ENVIRONMENTAL IMPACT OF THE BUILDING.
