Hendrik Van Brenk Joins Skanska USA Building Inc.

Skanska USA Building Inc. announced that Hendrik van Brenk has joined the company as Corporate Senior Vice President of Health, Safety & Environmental. Van Brenk is responsible for leading the company's national safety and environmental programs including strategic planning and expansion of Skanska's Injury-Free Environment initiative.

Most recently serving as a safety and environmental consultant for Skanska AB, Skanska USA Building's parent company, van Brenk's focus was on risk management and strengthening the company's Health and Safety programs on an international basis. In this role, he conducted a review of the safety systems and processes, and piloted new safety studies for several of Skanska's European business units.

Van Brenk has 25 years of experience in the field of Health and Safety and is a Certified Safety Professional (CSP) with broad experience in the construction industry. He has been involved in creating and implementing operational key performance indicators for various project lines and in previous roles has managed processes from quality assurance to environmental clean-up.

"We are delighted to have 'Van' on board and look forward to his contributions to Skanska," said Johan Karlström, President and CEO of Skanska USA Building Inc.

Skanska USA Building Inc. is a leading national and local provider of construction, pre-construction consulting, general contracting and design-build services to a broad range of U.S. industries including life sciences, healthcare, education, high-tech, aviation, transportation and sports and entertainment.
