Skanska USA Promotes John Calvin to Project Executive

DURHAM, N.C. – The building unit of Skanska USA has promoted Moneta, Va., resident John Calvin to project executive. Calvin is leading several projects at Virginia Tech, including the construction of the Institute for Critical Technologies & Applied Science (ICTAS) II, which will be completed later this year.

“John’s sound project management and innovative mindset make him an ideal leader in our organization,” said Steve Stouthamer, executive vice president and general manager of Skanska’s Durham office. “John has also been a leader in green construction. He is not only helping to lead Va Tech to a Silver LEED certification on the ICTAS II Project, but he helped bring the first ‘green’ project construction office to our site. We are looking forward to John’s leadership as we continue to grow our business in Virginia and Carolina’s market.”

Calvin previously served as senior project manager for the Carilion Clinic and the Carilion Consolidation projects in Roanoke, Va. He received a bachelor of science degree in civil engineering from North Carolina State University, where he graduated magna cum laude. He is a member of the American Society of Civil Engineers and the United States Green Building Council.

Skanska USA is one of the largest, most financially sound construction networks in the country consisting of four business units: Skanska USA Building, which specializes in building construction; Skanska USA Civil, which is focused on civil infrastructure; Skanska Infrastructure Development, which develops public-private partnerships; and, Skanska Commercial Development, which pursues commercial development initiatives in select U.S. markets. Headquartered in New York with 33 offices across the country, Skanska USA has approximately 7,000 employees and its 2009 revenues were \$5.7 billion, representing 32 percent of Skanska’s global revenues.

Skanska is one of the world’s leading project development and construction groups with expertise in construction, development of commercial and residential projects and public-private partnerships. Based on its global green experience, Skanska aims to be the clients’ first choice for Green solutions. The Group currently has 49,000 employees in selected home markets in Europe, in the U.S. and Latin America. Headquartered in Stockholm, Sweden and listed on the Stockholm Stock Exchange, Skanska’s sales in 2009 totalled \$17.9 billion.
